- ◆ No QAF
- ◆ Monitoring Report Submission

Key Conclusions of EWG54 related to EGNRET

1. EGNRET is requested to improve the draft roadmap for renewable energy doubling goal and to report progress at EWG55, taking into account the gaps, contribution from thermal and fuels, and factors such as social impact, market reform and trade and investment issues.
2. For renewable energy doubling goal, traditional biomass will not be counted; IRENA's definition of renewable energy is recommended; APEC data should be used for modeling and monitoring the progress.
3. Members are advised to be informed of PPSTI activities by PPSTI and to consider the participation to them for future cross-fora collaboration.
4. Members are advised to provide their PV data for the Thailand's project.
5. EWG will renew its ToR with the inclusion of quorum and sunset clauses requested by SOM starting from 2018
