

## Smart Metering in France >>

A sound business model and a proven technology

IDRI conference, Taipei  
August 2011

Antoine GARIBAL  
Vice President, Business Development

**CONTROL, INNOVATE, SUSTAIN >>**  
Real-time intelligence for Energy and Utilities

**Atos**   
WorldGrid

# Agenda

- Atos WorldGrid at a glance
- Overview and latest developments of the French LINKY program
- Our smart grid ready product

## Atos WorldGrid – a snapshot

- » A subsidiary of leading Consulting and IT Services companies Atos (9B€ annual revenues, 80,000 staff worldwide)
- » Over 1,000 Energy and Utility specialists
- » End-to-end intelligence from real-time data – from “the meter to the manager”
- » Bridging the gap between industrial control and business systems
- » Global reach - centers of excellence in Europe, China, India and Latin America
- » Building on 30+ years’ specialized industry expertise

# A unique positioning

**Bridging the gap between industrial control and business systems**

# We operate around the world

 Nuclear	 Power	 Gas	 Oil	 Water
---	---	---	--	---

# Agenda

- Atos WorldGrid at a glance
- Overview and latest developments of the French LINKY program
- Our smart grid ready product

# Agenda

- Atos WorldGrid at a glance
- Overview and latest developments of the French LINKY program
- Our smart grid ready product

# Our offering is a product derived from the core LINKY solution

## Conclusion

### A proven, smart grid ready product

- Scalable from 1,000 to 35M meters
- Completely independent from hardware manufacturers and telecom operators
- End to End Service
- End to End Security
- Reduced TCO for our Smart Customers
  - ✓ Intelligence in the Concentrator rather than in the Meter
  - ✓ Full interoperability
  - ✓ Optimized data communications costs
- Future proof: downloadable intelligence into the Concentrator
- A well defined technology roadmap
- Long haul service maintenance (20+ years)

Thank you >>
