

# Capacity Building Workshop for New and Renewable Energy Policy

EGNRET 62 Meeting  
10 April 2025, Hong Kong, China

Daniel Burlutsky  
Visiting researcher, APERC

# Outline

- Background
- Project Outline, including Objectives
- Draft agenda
- Schedule

## Background

- APEC has set a collective goal of **doubling its share of renewables in its energy mix by 2030 relative to 2010** and supporting the global goal of tripling renewables by 2030.
- Given these aspirations, the policy capabilities of APEC members needs to be strengthened to promote the formulation of policies for **new and renewable energy supply**. This will help APEC economies meet their respective **targets and pathways**.
- This will be facilitated by a **capacity building workshop** focusing on developing new and renewable energy related policies.
  - The **workshop** will be held in conjunction with the **first EGNRET meeting in 2026** (assuming all relevant conditions are met).

# Project Outline

<b>Project Title</b>	Capacity Building Workshop for New and Renewable Energy Policy
<b>Proposing -economy</b>	Japan
<b>Co-Sponsoring economy</b>	Chile; Indonesia; Peru; the Philippines; Chinese Taipei; Thailand
<b>Objectives</b>	<p>Given the increasing need to promote new and renewable energy (NRE) and contribute to the global energy transition, doubling the share of modern renewables to energy mix and other NRE related goals, the policy capacities of members should be built. To achieve this, the project aims to:</p> <ul style="list-style-type: none"><li>- Identifying common challenges in implementing new and renewable energy related policies of the member economies;</li><li>- Sharing best practices of the selected case; and</li><li>- Proposing new ideas to improve the existing or, in case of the absence of any, develop, new and renewable energy policies of the member economies.</li></ul>
<b>Outputs</b>	<ol style="list-style-type: none"><li>1. Capacity Building Workshop for New and Renewable Energy Policy</li><li>2. Workshop Summary Report</li></ol>

# Output 1. Capacity Building Workshop

Date	23 April 2026 (TBC)
Venue	TBC
Draft Agenda	<p>9:00: <b>Opening Remarks</b></p> <p>9:10: <b>Keynote Speech</b></p> <p>9:25: <b>Scene Setting</b></p> <p>9:40: <b>Session 1: Host economy presentation and subsequent discussion</b> Presentation by host economy of its policies and programs for renewable energy, lessons learnt, and challenges faced. A discussion on the presentation amongst members will follow, identifying strong points and how similar policies can be adopted with advice provided by experts.</p> <p>11:15: <b>Session 2: Economy presentations on their respective NRE projects</b> Participating economies to highlight challenges regarding implementation of their NRE projects followed by a broader discussion within the group.</p> <p>14:00: <b>Session 3: Final discussion with experts on their observations and recommendations</b> Experts sharing their insights and recommendations on the preceding presentations and proposing next steps.</p>

# Schedule

Date	Actions
September – November 2025	Coordination with EGNRET and host economy on topics for discussion.
November 2025 – January 2026	Search for experts and consultants.
January – April 2026	Drafting of Project Monitoring Report.
February 2026	Preparation for the Workshop.
April 2026	Capacity Building Workshop for New and Renewable Energy Policy (CBWS/NREP) in conjunction with EGNRET 64.
April 2026	Submit Workshop Summary Report.
June-July 2027	LTEAP response.

# Thank you.
