## Ask an Expert: Developing Solutions to Policy Barriers

We connect policymakers to a global network of 60+ energy experts for personalized and responsive technical assistance on **strategies, regulations, standards, financial incentives, and deployment programs** for a broad range of clean energy sectors and technologies:

- Energy Access
- Energy Efficiency
- Renewable Energy
- Finance
- Smart Grid
- Transportation
- Utilities

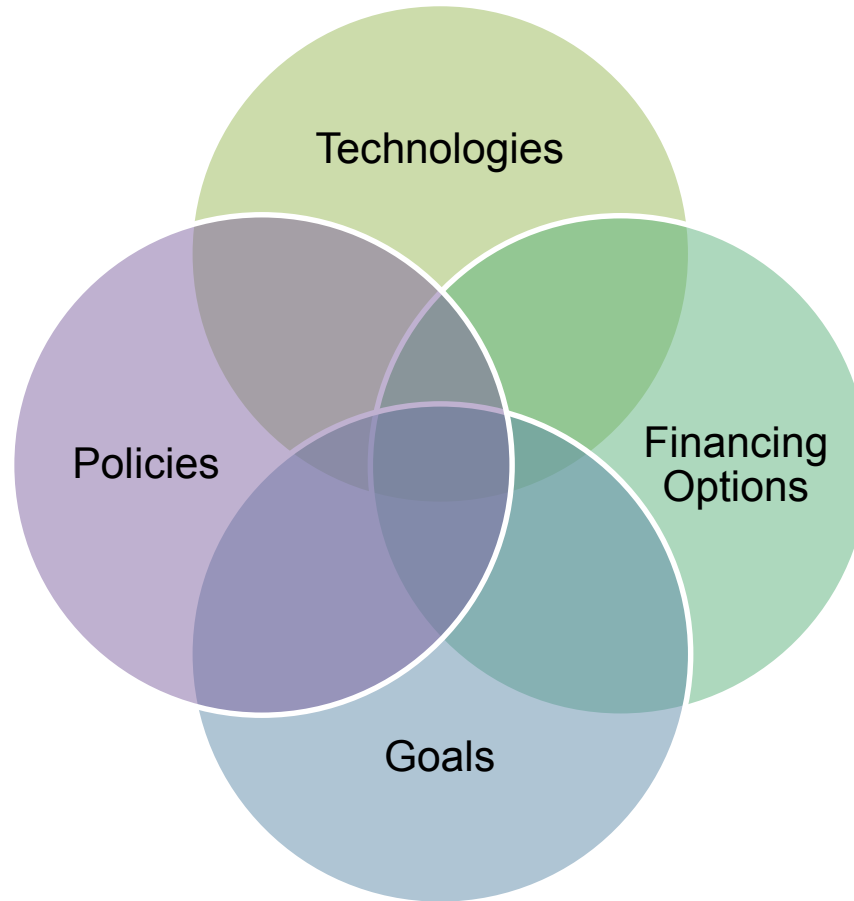

Responded  
to over 350  
requests for  
assistance  
from over 80  
countries.

# Factors in Expanding Renewables

CleanEnergySolutions.org

# Goals: Why Increase Renewables?

CleanEnergySolutions.org

- Renewable energy can provide solutions to a number of issues
  - Given wide range of types or RE and energy uses, important to understand motivations to determine how to proceed
  - Even with a type and sector (i.e., PV electricity) policy design varies
    - Utility-scale vs distributed
    - Private vs. public ownership
    - Grid power vs energy access
  - Information to aid continuity

# APEC – A Strategic Approach

CleanEnergySolutions.org

- Recognize “target-itis”
  - Align direction of APEC goal with other targets and commitments
  - Clarify expectations of Doubling goal
- Look for specific value APEC can provide
  - PRLCE for developing countries underway, what next?
- Identify and tackle regional obstacles
  - Especially in areas without as much newer areas –
  - Financing models, thermal policies, training & certification, etc.
- Assist each economy with an individual path forward that reflects local priorities

# Clean Energy Solutions Center

CleanEnergySolutions.org

- How can we help?
- Pledged assistance of 120 hours from team of clean energy policy and finance experts
  - Avail through July 2017
- Looking for specific ideas of how we can move forward

# THANK YOU!
