EGNRET Responded to EWG 45 on APEC RE Target

EGNRET 40 (Ha Noi, Viet Nam, 2-5 April, 2013)

To respond the EWG members' discussion on setting a target for renewable energy development in the APEC region at EWG 45, the following suggestions were reached after fluent discussion by EGNRET members at **EGNRET 40**:

- **EGNRET suggests APERC and EGEDA consider proposing an APEC funded project to establish a common definition of different types of renewable energy incorporating with current classification of renewable energies developed by EGEDA, IRENA, and IEA.**
- **EGNRET also suggests ESCI-KSP (Energy Smart Communities Initiative – Knowledge Sharing Platform) may be a platform for uploading member economies' renewable energy data as a reference for further policy making of renewable energy in APEC region.**

The Chair forwarded the above suggestions to the EWG Lead Shepherd, APERC Chair, and EGEDA Chair for their consideration.

Thank you for your attention!

EGNRET website: <http://www.egnret.ewg.apec.org/>

A screenshot of the EGNRET website homepage. The header includes the APEC logo and the text 'APEC Energy Working Group EXPERT GROUP ON NEW AND RENEWABLE ENERGY TECHNOLOGIES'. A navigation menu lists 'Home', 'Representatives', 'Projects', 'Meetings', 'Workshops', 'Reports', 'Publications', and 'Reference'. The main content area features a large 'WELCOME' text, a welcome message, and a sunset image. Below this is a section for the 'APEC Expert Group on Energy Efficiency and Conservation (EGEE&C) Under the APEC Energy Working Group'. A navigation bar at the bottom includes tabs for 'Upcoming ...', 'Past ...', 'Documents', 'Project Workshops and Reports', and 'About Us', along with a search box.
