Main Sources of APEC Project Funding

- **General Project Account (GPA, formerly Operational Account)**

All APEC member economies may apply for funding under GPA.

Projects may be fully funded under GPA. There are no self-funding requirements for GPA-funded projects.

- **APEC Support Fund (ASF)**

All APEC member economies may apply for ASF funds. There are no self-funding requirements.

- **APEC Trade Investment and Liberalization Fund (TILF)**

Developed economies must provide 50% self-funding; developing economies must provide 20% self-funding.

- **Self Funding** (Endorsed by fora)

* The financial year (FY) of APEC: 1 Jan to 31 Dec of each year

APEC Project Fund Accounts

The General Project Account (previously Operational Account)

- The GPA is funded from annual membership contributions. It supports initiatives under APEC's economic and technical cooperation agenda aimed at attaining sustainable growth and equitable development.
- All APEC member economies may apply for funding under GPA.
- Projects may be fully funded under GPA. There are no self-funding requirements for GPA-funded projects.

APEC Project Fund Accounts

The APEC Support Fund

- ASF projects must clearly address **the capacity building needs of developing member economies.**
- APEC defines capacity building as activities that enable people, businesses, and government to improve skills and knowledge to engage in trade and investment liberalization and facilitation.
- POs have the option to identify which ASF sub-fund they believe their concept note could be eligible for.

The Trade and Investment Liberalization and Facilitation Account (TILF)

- TILF is sourced from voluntary member contributions.
- All TILF projects must clearly contribute **to achieving trade and investment liberalization and facilitation**, as it relates to at least one of the 15 areas listed in Part 1 of the Osaka Action Agenda.
- The funding criteria for TILF require member economies to self-fund a percentage of the overall project cost.

Number of APEC Projects 2011-16

Rank System

Rank 1: Projects that **demonstrate a direct link to promoting regional economic integration** via free and open trade and investment

BMC agreed a new scoring system that removed the requirement for Rank 1 projects to always be funded ahead of Rank 2 and 3. This has improved the chances for Rank 2/3 projects to get funding.

The Rank 1 projects still have an advantage because they focus on the highest priority issues.

EWG's Policy on Project Vetting

[1] Procedures for Project Proposals

EWG 43 (March, 2012)

- While EWG member economies retain the right to make project proposals directly to the EWG, member economies are highly encouraged to vet project proposals with an appropriate expert group or task force.
- This will ensure expert advice and coordination with ongoing and planned work as the project proposals are elaborated.
- Project proposals should normally be submitted by a EWG delegate or designated expert group or task force member.
- In cases where the subject matter of the proposal does not clearly relate to the remit of any existing expert group or task force, or in cases where the project would be self-funded by an economy or economies and no request is being made for support from APEC funding sources, the expert vetting process may not be necessary.

EWG's Policy on Project Vetting

[2] Procedures for Projects Underway

EWG 43 (March, 2012)

- Each APEC-funded project underway should be assigned a lead expert group or task force to follow and advise it, along with an assisting expert group or task force where appropriate, to ensure coordination with ongoing or planned activities.
- Project assignments should be suggested by expert group and task force chairs collectively, and the assignments should then be endorsed by the EWG.
- The APEC and EWG Secretariats should maintain a list of current projects with leads and co-leads for each in consultation with the expert group and task force chairs, and this list should be reported to the EWG.
