

EGEE&C project list February 2011

Terry Collins
Chair

Recently completed

- EWG 05/2008 Survey of Policies and Programs to Measure and Promote Energy Efficiency in Industry in APEC Economies (US)
- EWG 05 2009 Capacity Development Workshop - Facilitation of International Harmonization of Standards for Energy Management in APEC (China)
- EWG 01/2010T Reducing Trade Barriers for Environmental Goods & Services - Mapping Exercise of Energy Efficient Products (Japan)
- EWG 02/2009T Alignment of national standby power structures (Australia)

In progress

- EWG 11/2009A Cool Roofs in APEC Economies: Review of Experience, Best Practices and Potential Benefits (US)
- EWG 13/2009A Energy-Saving Windows: Survey of Policies and Programs to Promote Advanced Window and Glazing Technologies in APEC Economies (USA)
- EWG 07/2010A Market Compliance Mechanisms for Energy Efficiency Programs (US)
- EWG 08/2010A Street & Outdoor LED Lighting Initiative Asia (SOLLIA) (US)
- EWG 10/2010THarmonisation of LED Standards (Australia)

Proposed for 2011

- Demand response capabilities (TILF) (Australia) – Round 1 funding
- Energy Performance Evaluation Methodology (TILF) (China) – Round 1 funding
- LED Standards Workshop (Self funded) (Chinese Taipei) – Round 2 funding(?)
- Best practices in Energy Efficiency & Renewable Energy in Industry (Thailand/US) (Joint EGRNET/EGEE&C project) – Round 2 funding

Ongoing

- Energy Standards Information System – Project managed by the US-based Collaborative Labelling & Appliance Standards Program (CLASP) – Governance by the ESIS Steering Group – Funded through economy contributions.

Other fora – Subcommittee on Standards & Conformance

- In progress – CTI-SCSC 332010T Sustainability in Building Construction (aka Green Buildings)
- Proposed for 2011 – Aligning Energy Efficiency Regulations for ICT Products: Conference on Key Issues (TILF) (US) – Round 1 funding
