

Expert Group Energy Efficiency and Conservation

Outcomes

Actual trial results, Perth

Projects

LED standards harmonisation

Demand response capabilities in appliances

Street and Outdoor LED Lighting Initiative Asia

Market compliance mechanisms

Cool roofs

Energy efficient windows

Energy Standards Information System

Future direction – maintain separate database or be hosted on superefficient.org?

Need to discuss with APEC Secretariat and EWG Chair

CAST

Concrete steps to harmonise standards for LED lighting (indoor)

Following recommendations from LED standards harmonisation workshop

Next Meeting

Seoul, Korea – 7-9 November 2011 (tbc)

Invitation to host workshops alongside the meeting

Workshop on efficient distribution transformers
