### Project Synopsis

1. **Relevance – Benefits to region:** What problem does the project seek to address? Does it have sustained benefits for more than one economy?

**Relevance – Eligibility and Fund Priorities:** How does the project a) meet the eligibility criteria and b) support the funding priorities for the nominated fund or sub-fund? Refer to the APEC website.

**Relevance – Capacity Building:** How will the project build the capacity of APEC member economies? For ASF projects, please identify the APEC developing member economies that will benefit from this project. (Refer to capacity building goals, objectives and principles at Appendix K of the Guidebook.)

**Objective:** State the overall objective of the project in 100 words or less. The objective is the overarching goal of your project, for example, "Our objective is to build the capacity of project participants through workshop and research to better support the X Roadmap, and produce recommendations as a basis for further collaboration to address the APEC-wide issue of..." In the Project Proposal, you will be required to identify a set of measurable project-level **outcomes**, which if collectively achieved, define whether the project has met the objective stated here. You can identify more than one objective, but avoid confusing the *objective* or goal of the project with the project's *outcomes*.

2. **Alignment – APEC:** Describe specific APEC priorities, goals, strategies and/or statements that the project supports, and explain how the project will contribute to their achievement.

**Alignment – Forum:** How does the project align with your forum's work plan/strategic plan?

3. **Methodology:** How do you plan to implement the project? Briefly address the following:

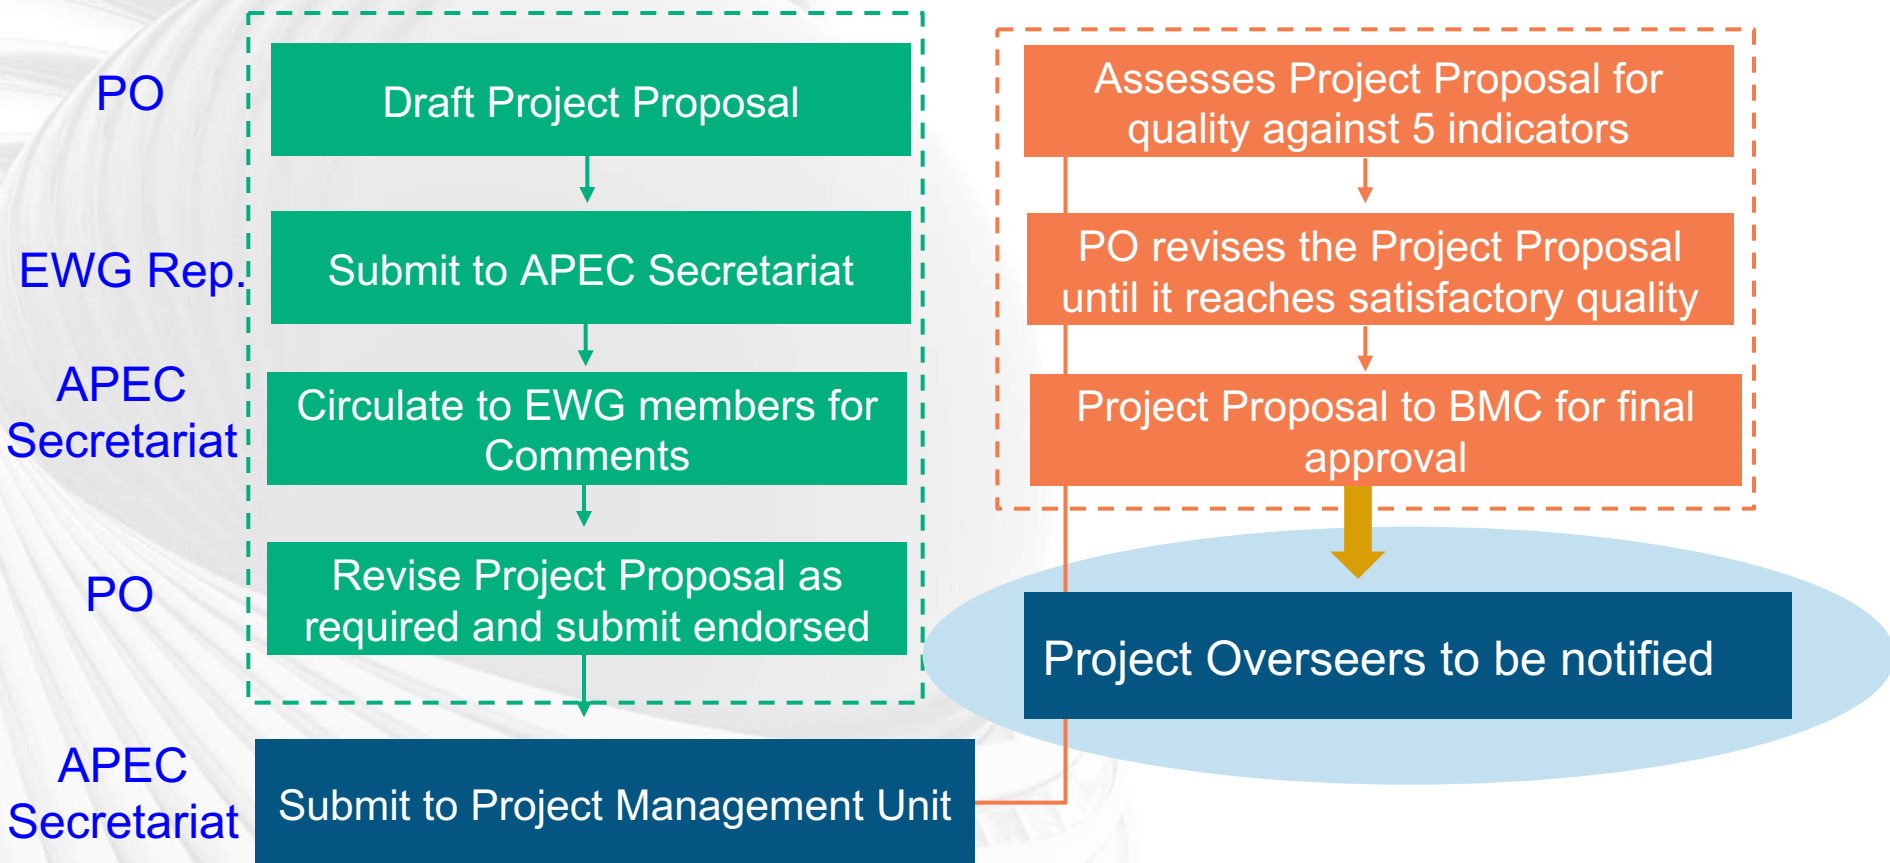

- **Work plan:** In a simple table, outline the project from start to end. Show key project outputs and activities and associated dates or timelines.
- **Beneficiaries:** Selection criteria for participants, beneficiary profiles (e.g. participants, end users, policy makers, researchers/ analysts, gender) and how they will be engaged.
- **Evaluation:** Outline the indicators which will be used to measure progress towards the project outcomes. Where possible provide indicators which could assess impacts on women.
- **Linkages:** Information on other APEC and non-APEC stakeholders and how they will be engaged. If and how this proposal builds on (but does not duplicate) the work of other projects. How will this activity promote cross fora collaboration?
