Project Session 1, 2021

• **Project Session 1 (2021)** dates and funding availability will be advised after December this year. Please monitor the APEC website or contact your Program Director.

<Optional Review Process>
• Deadline for CNs submission by Economy Representative or Project Overseer (PO) to EG/TF : 20 November 2020

• Deadline for CNs submission by Economy Representative or PO to APEC Secretariat: 1 December 2020

• CNs will be circulated to EWG members for review: 2 December
PROJECT UPDATES
COVID-19:

Regional travel disruptions related to COVID-19 continue to make physical project events challenging.

➢ For the remainder of 2020:

Any APEC-funded PO who has a physical event planned for the remainder of 2020, and who wishes to still undertake the project event in 2020, to submit a PDAEF* and propose a virtual event. Hybrid events (i.e. events that have a ‘physical core’ but with varying degrees of remote access) may be feasible but these are subject to local conditions and prevailing regional travel restrictions.

*PDAEF: APEC Project Design Amendment & Extension Form
PROJECT UPDATES

COVID-19:

Regional travel disruptions related to COVID-19 continue to make physical project events challenging.

- **2021**: for physical project events planned to coincide with SOM clusters and other host year events in New Zealand’s host year:
  - New Zealand has announced that all APEC2021 meetings and events in New Zealand will be conducted virtually due to the disruptions to regional travel imposed on us all by COVID-19. It is revising the meeting calendar and schedule to enable APEC to continue all its work, including capacity building on a virtual basis. New Zealand is planning for the overall meeting calendar to have a similar structure to previous years, however it expects meetings and events may be shorter to accommodate differing time zones, and spread across a larger number of days.
  - Accordingly, POs are asked to replace any physical APEC project events planned to take place in New Zealand in 2021 (whether during SOM clusters or other host-year APEC events) with fully virtual events. New Zealand is developing a virtual meeting platform that should be available to host fully-virtual APEC project events and will provide more advice on this as soon as possible.
  - **For 2019 projects and projects underway**: Please submit a PDAEF* as required. POs should consult PDs before making final decisions about the exact scheduling of virtual or hybrid project events, given the NZ2021 virtual calendar is yet to be announced, and to allow PDs to coordinate events around the margins of 2021 meetings.

*PDAEF: APEC Project Design Amendment & Extension Form*
Regional travel disruptions related to COVID-19 continue to make physical project events challenging.

- **2021: for physical project events planned to occur outside New Zealand**

  - In view of the ongoing uncertainty for project participant travel in 2021, POs are recommended to replace any physical APEC project events with fully virtual events. Any physical event should accommodate the possibility of remote participation (hybrid events). If you do elect to maintain a fully physical event, in view of the potential for travel disruptions in 2021, you are advised to be ready to change such plans. Please note that the Secretariat does request 4 months’ notice in this circumstance. This is to accommodate processing the design amendment request (PDAEF) itself, undertake any contractual amendments or develop new contracts, ensure timely circulation of information or administrative circulars, and complete any pre-event system testing.

- **For 2019 projects and projects underway:** Please submit a PDAEF as required. If your design amendment entails a change of date, please consult your PD to ensure project event scheduling is coordinated at the forum level.

*PDAEF: APEC Project Design Amendment & Extension Form*
Regional travel disruptions related to COVID-19 continue to make physical project events challenging.

• Self-funded POs may wish to follow the advice issued to APEC-funded POs. Self-funded POs should consult PDs should they seek to adopt virtual or hybrid formats, in lieu of physical events.

• Budget principles have been developed by the Secretariat to support planning for virtual and hybrid project events. Please consult your PD if you wish to find out more.

• There are some things to consider when planning to host a virtual/hybrid project event:
  • Ensure the platform or software you choose can be readily accessed by all participants.
  • Be conscious of time zones. Consider staging your event over multiple shorter sessions, or over a range of days, to maximise accessibility.
  • Large events can be difficult to facilitate in virtual settings and may constrain the potential impact of your project.
  • Your project information/admin circular should clearly identify the minimum technical requirements for participation. Consider pre-event testing to identify accessibility issues.
PROJECT UPDATES

Need to knows:

• The document: *2019: What do I need to know about the new Concept Note and Project Proposal templates?* is mandatory reading for all POs. You will find a copy in the PO Toolkit (https://www.apec.org/Projects/Forms-and-Resources)

• **The Project Completion Date (PCD)** is the date by which all operational aspects of your project must be completed: including endorsement of your APEC Publications, final reports, and the completion of all disbursements. Ensure you plan accordingly. Set a practical PCD at the outset to avoid extension requests.

• **Completion Reports (CRs)** are due within 2 months after the PCD.

• **Monitoring Reports (MRs)** are due once-yearly on the date advised to POs in the Letter of Acceptance (usually either 1 April or 1 October).

• **Overdue MRs and CRs**: only one reminder will be issued by the Secretariat (after 30 days) and BMC will be advised about overdue reporting!

• **Penalties apply for late submission of MRs and CRs!**
PROJECT UPDATES

Need to knows:

• **Self-funded Projects must comply with APEC guidelines and practices** (hosting, publications, logo use, non-member participation). POs must submit a **Self-Funded Project Proposal Coversheet** (Guidebook on APEC Projects, Appendix C) to the Secretariat before commencement of the project. Project Overseers are strongly encouraged to submit a **Completion Report**.

• **Tips for your project event:**
  Give sufficient notice to members regarding your project events. Some fora have many project events in a single year, competing for attention. Do your research and use your networks to help find the right participants and speakers. Involve relevant international experts and organisations as speakers, ensuring you follow the Guidelines on Managing Cooperation With Non-members. Invite representative(s) from other APEC fora if relevant. Work closely with your Secretariat Program Executive on travelers approvals and acquittals.
PROJECT UPDATES

Need to knows:

• **Follow the correct Procurement and Contracting approach.**

• *Guidebook: See Chapter 12 and Appendix I.*

• Different procurement approaches apply for work below US$5,000; between $5001 and $20,000; between $20,001 and $50,000; above $50,001.

• Procurement takes time! The Letter of Acceptance has suggested timelines. Be specific and detailed in Terms of Reference and Request for Proposal (RFP) documents: tell the contractor exactly what you want them to do, and when you want them to do it. Don’t leave room for assumptions.

• When evaluating RFP bids, ensure that the specified Evaluation Criteria identified in the RFP, are actually used to evaluate the bids.

• Get your proposal assessment panel together early (applies to procurement over $50,001). Only members of your forum officials (or their nominated delegates) can be assessors. Use the RFP timeline and correct templates: See PO Toolkit.
